## *Inspirational Moment*

Sometimes, we think that to make an impact, we have to do some GRAND gesture. This is not the case. Think of what a smile could mean to a stranger. Holding the door for someone. Telling someone that you admire the clothes they have on. These small acts of kindness have the potential to turn someone's day around. We can change the world one smile at a time.

When you are planning Pick Me Ups or Projects for your club.....keep this in mind. We all love big projects. And there is nothing wrong with a big project. But let's also remember all of the little things that can be accomplished in the between times. And whether your club has 40 members or 4, there are no limits to what you can accomplish if you remember the small things too.

Just some food for thought.

Grace and Peace
